Accomplishments

Although I have a disability, I have used it as motivation to help others. As a child and with the help of my parents, I started Chico Challenger Little League, a youth baseball league for children with disabilities. While in high school, I worked toward and achieved the rank of Eagle Scout in the Boy Scouts of America program. Following high school, I took two years off school to serve as a missionary for my church. There, I learned the true meaning of charity and perseverance. I do not quit until the job is done.

Education

Brigham Young University-Idaho
Rexburg, Idaho
BS in communication
